

Liquid/Blood Tutorial

Photoshop 5.0+ | written by gwala (gwala.deviantart.com)

Setting up

First - create a new alpha channel, on that channel using the circular marquee tool make a series of "patches" in any shape or size (i prefer to make them circles, to do so - hold down shift while selecting)

Filter->Blur->Gaussian Blur

Settings: 15px blur

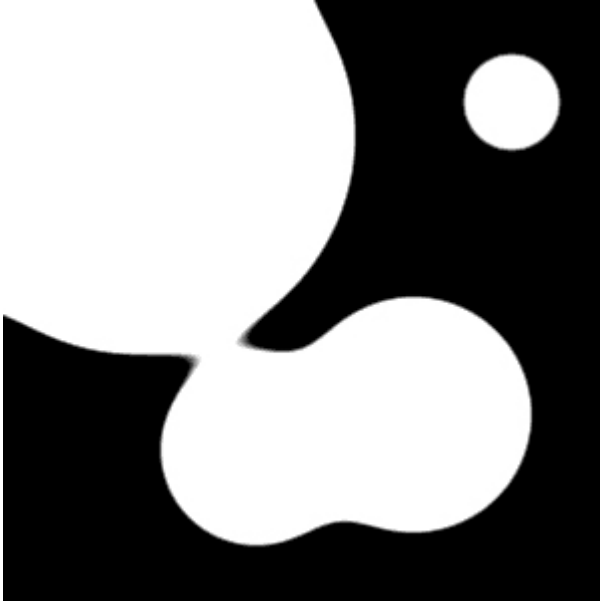

Image-
>Adjustments-
>Brightness/Contrast
Settings: Contrast 97,
brightness ??

nb: brightness should
be set to acheive the
effect you desire

Final Touches
Finally select the alpha
channel, make a new
layer and apply [these](#)
settings to acheive the
effect pictured.
